1 · TikTok Connection page

The user opens Stash and chooses to connect their own TikTok account.

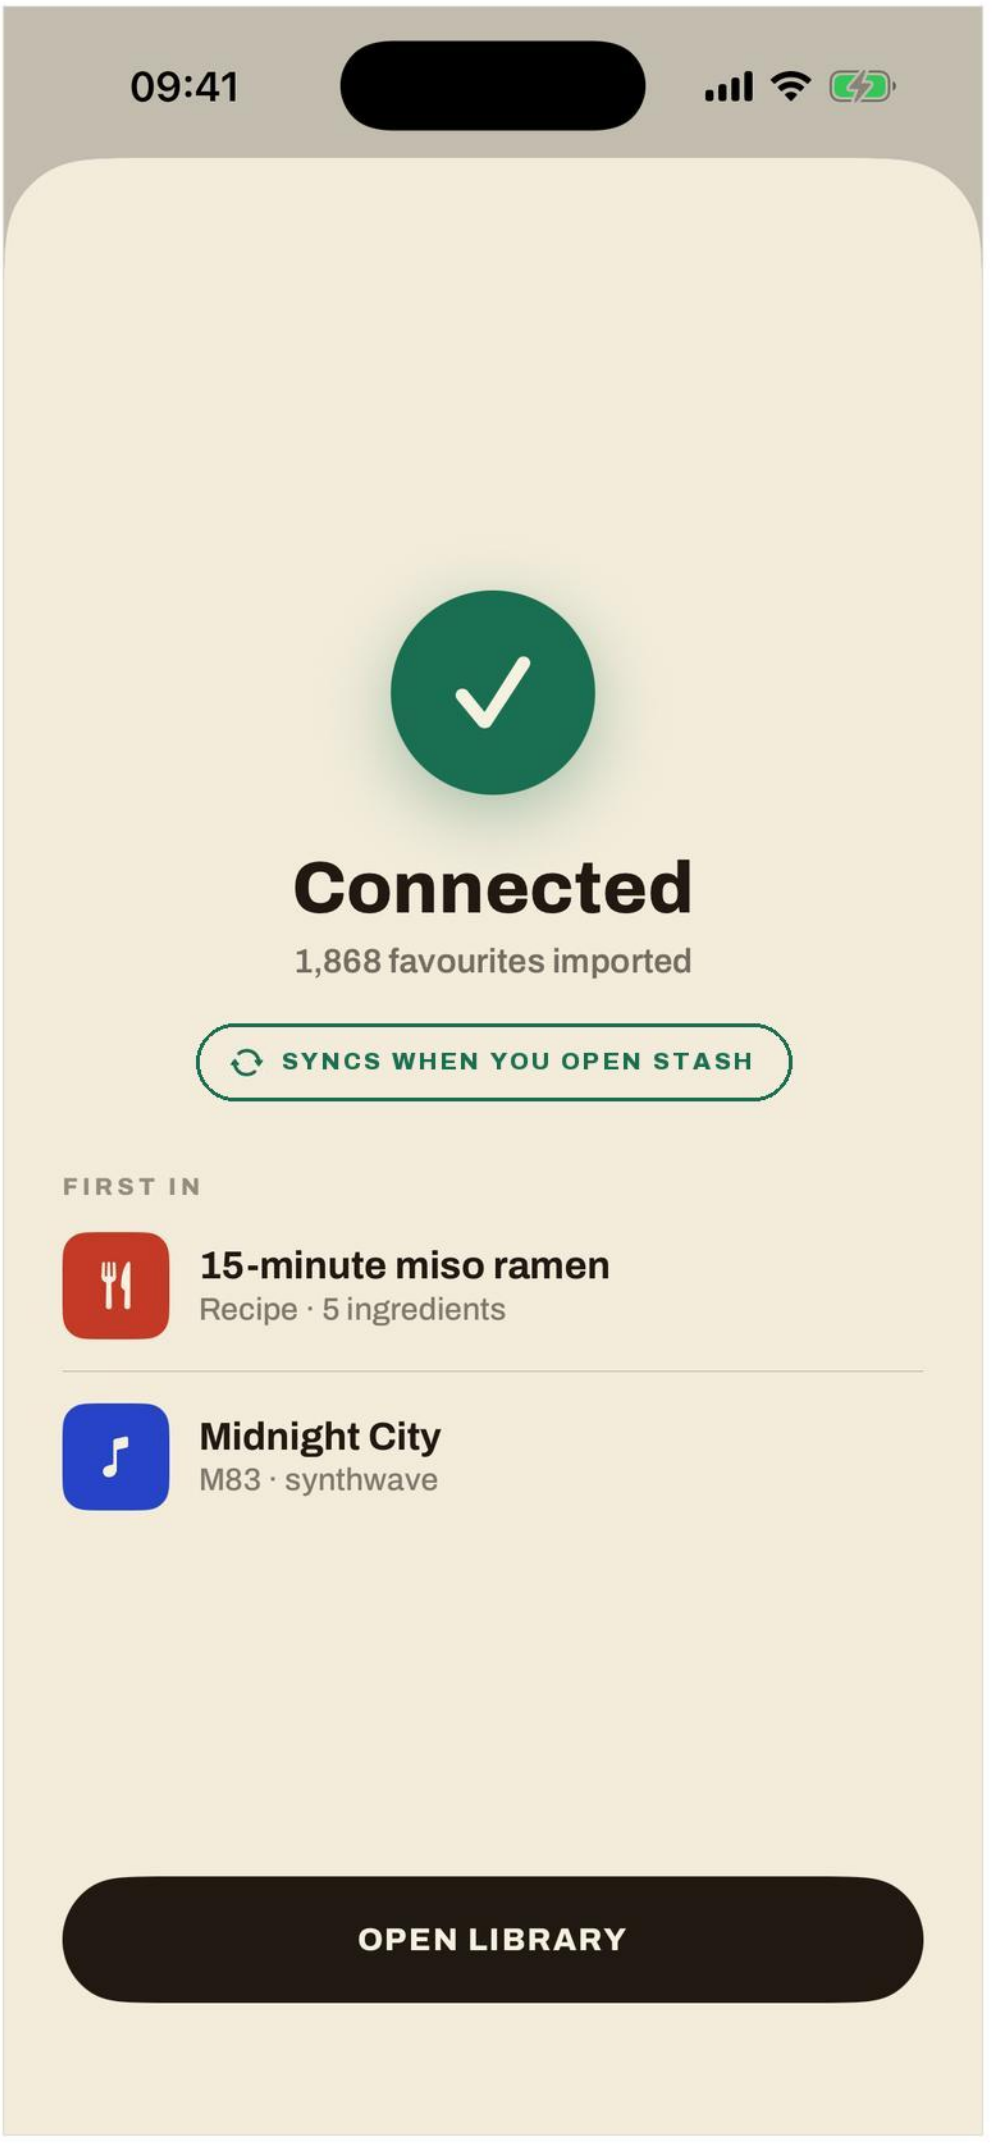

2 · Connecting to TikTok

Scope consent: Stash keeps only Favourite Videos. The rest of the archive is deleted unread.

3 · Confirmation of connection

Account linked, favourites imported. New favourites arrive each time the user opens Stash.

4 · Final output / result

The user's own favourites, organized into a searchable library. Visible only to that user.
